Linking Creativity, Collaborative Writing, and Inspiration to Develop Stories and Characters

Writing can feel like a burden, but given the right tools, it can be fun. Folded Cortex Technologies is here to help. Our goal is for campers to realize that writing does not have to be a stressful task. We will implement strategies to help young writers get their thoughts on paper. Together we will collaborate and grow your ideas into strong characters and developed stories. Using a range of techniques, writers will be able to let their creative minds unfold.

Instructors:

Becky Fisher:

As a life-long learner, Becky has earned her Master's Degree from Valley City State University in Technology Education, and has two undergraduate degrees from the University of Houston, one in Interdisciplinary Studies specializing in reading and math, and the other one in Business Administration with an emphasis in Finance. Becky works for Fargo Public Schools.

Sarah Peper:

Sarah is currently enrolled at Minnesota State University at Moorhead where she is pursuing a degree in Inclusive Elementary Education with an Academic and Behavioral Specialist license. As our intern, Sarah is currently working on research projects. With her research specialty, she is specializing in assistive technology.
